

PATRON ACKNOWLEDGEMENT

2022 WEBSTER COUNTY

DUST CONTROL PROGRAM

I agree to the following conditions and I understand that Webster County has no obligation and will assume no responsibility for the work, or liability resulting from such.

If in the County's opinion, sufficient surface deterioration has developed as to become a liability to the traveling public, or if at any time the road condition becomes such that the County determines maintenance is required, the County will perform necessary maintenance. The County at no time will be responsible for the cost of re-treatment. The County will blade all spots in preparation for the second application regardless of when the first application was completed.

Flags, delineating the limits of dust control, must be in place by the 2nd Friday in May and must be visible until October 1st. This will inform the blade operator of the location of the treated surface. **Failure to keep the flags visible may result in the treated area being bladed.**

I understand that dust control may begin no sooner than the 3rd Friday in May unless special arrangements are made with Webster County.

Additionally, I understand that after October 1st, of the issued year, Webster County reserves the right to scarify the treated portions and maintain them as granular roads.
