PERMIT REQUIREMENTS

1. The installer shall submit to Wright County Engineer a certificate of liability and property insurance with minimum coverage meeting or exceeding the coverage set forth in the "Wright County Contractor's Insurance Requirement" policy. Wright County shall be indemnified and held harmless as to any damages resulting from the installer's operations. A copy of a certificate of insurance naming Wright County as an additional insured for the permit work or proof of self-insurance shall be provided to the County Engineer prior to installation.
2. Traffic control devices, procedures, layouts, signing, and pavement markings installed within the limits of the permit shall conform to the "Manual on Uniform Traffic Control Devices for Streets and Highways" as adopted by the DOT per 761 of the Iowa Administrative Code Chapter 130.
3. Work to be performed in May and August dependent on the weather conditions.
4. The applicant shall obtain the permit form directly from their preferred supplier, fill the form out completely, and submit with payment to the company they select to apply the dust control. The contractor shall also sign the permit and submit to the Wright County Engineer for final approval and road preparation.
5. Applicants shall make arrangements with county approved applicator of their choosing and financing of the work shall be the sole responsibility of the applicant.
6. The only material, which may be used on the roadway for dust control are calcium chloride, Magnesium chloride, lignin sulfonate, or soybean oil.

Failure to provide all information will result in denial of the application. Information furnished is public information and copies may be provided to the public upon request.

Wright County
Permit Application for
Surface Application of Dust Control Material

7. The county shall continue to perform regular or necessary maintenance and construction functions (such as blading and granular resurfacing) required within and upon the treated roadway, and if potholes or other roughness develops, the surface will be bladed to fill the depressions and smooth the surface. Any damage, or apparent damage, of the treated roadway resulting from any operation by Wright County shall in no way obligate Wright County for its repair or restoration. Blading roads for winter preparation will begin October 1 depending on road and weather conditions. It shall be the responsibility of the applicant to contact the County Engineer's Office (515-532-3597) for information regarding resurfacing schedule.
